EXPERIENCE

iSmart Apps

React.js Developer

January 2023 – January 2024

Remote, UK

- Developed cutting-edge responsive design techniques, leading to a notable 15% increase in user engagement and improved user satisfaction.
- Mentored junior developers, providing guidance, conducting code reviews, and promoting best practices, resulting in a 30% improvement in code quality and a 40% increase in on-time project delivery.
- Collaborated with backend developers on Node.js and Express.js projects, reducing development time by 20 % and achieving seamless integration for enhanced efficiency.

QuikieApps

React.js Developer

January 2022 – December 2022

Remote, Bangalore, India

- Worked on **React js** web app which facilitates seamless interaction among Super Admin, Providers, and Para-Medic Staff.
- Engineered a hands-on learning experience in **React Native** app development and deployment, reducing app crash rates by 15% and implementing new features that boosted user engagement by 30%.
- Troubleshooted and debugged 50+ issues, ensuring timely resolution and minimal disruption to project timelines.

40Bears

Front End Developer

June 2021 – November 2021

Remote, India

- Designed responsive web applications with Bootstrap and fixed bugs in **React.js** applications.
- Contributed to daily stand-up calls and developed mobile apps with **React Native**.

PROJECTS

Neutrelle | React JS, Express JS, Mongo DB

November 2022 - March 2023

- Achieved a 98% code accuracy rate in project deliveries, ensuring robust and reliable software solutions.
- Integrated React web app with existing Elementor WordPress site, streamlining user experience and boosting page load speed by 40%
- Created a system to calculate vehicle carbon emissions using DVLA API, incorporating vehicle data retrieval and accurate emission calculations.
- [Live site here](#)

iFileVAT | React JS, Express JS, Mongo DB

March 2023 - Present

- Introduced automatic generation and downloading of PDF reports for file returns, reducing manual processing time by 60% and increasing user satisfaction by 40%.
- Simplified the process of submitting VAT returns to HMRC and accessing related information on liabilities and payments.
- Implemented Google login functionality for streamlined authentication alongside traditional login and signup methods.

MacTassos | React JS, React Native, Express JS, Mongo DB

April 2023 - Present

- Strengthened client relationships by understanding unique requirements and delivering tailored solutions, resulting in a 30% increase in client satisfaction
