## EXPERIENCE

### iSmart Apps

Web and App Developer

January 2023 – January 2024

Remote, UK

- Worked with React JS and React Native, ensuring responsive design for optimal performance across devices.
- Mentored junior developers, offering guidance, conducting code reviews, and promoting best practices.
- Collaborated with backend developers, providing support on Node JS and Express JS projects.

### QuikieApps

App Developer

January 2022 – December 2022

Remote, Bangalore, India

- Contributed as a junior developer, gaining hands-on experience in React Native app development and deployment processes.
- Troubleshooted and debugged issues, ensuring timely resolution and minimal disruption to project timelines.

### 40Bears

Front End Developer Intern

June 2021 – November 2021

Remote, India

- Designed responsive web applications with Bootstrap and fixed bugs in Vue JS applications.
- Contributed to daily stand-up calls and developed mobile apps with React Native.

## TECHNICAL SKILLS

**Languages:** JavaScript, Typescript

**Technologies/Frameworks:** ReactJS, Redux, ReduxToolkit, HTML, CSS, MaterialUI, TailwindCSS, GitHub

**Familiar With:** NextJS, NodeJS, ExpressJs, Mongo

## PROJECTS

### Neutrelle | React JS, Express JS, Mongo DB

January 2023 - March 2023

- Solely managed the front-end development using React.js, ensuring a responsive and interactive user interface
- Collaborated with the WordPress development team to seamlessly combine the React web app with the existing website built on Elementor.
- Developed a system to calculate vehicle carbon emissions using DVLA API, incorporating vehicle data retrieval and accurate emission calculations.
- [Live site here](#)

### iFileVAT | React JS, Express JS, Mongo DB

February 2023 - Present

- Successfully implemented automatic generation and downloading of PDF reports for file returns.
- Simplified the process of submitting VAT returns to HMRC and accessing related information on liabilities and payments.
- Implemented Google login functionality for streamlined authentication alongside traditional login and signup methods.

### MacTassos | React JS, React Native, Express JS, Mongo DB

April 2023 - Present

- Independently managed the front-end development of staff mobile app, customer mobile app, and admin web app using React JS and React Native.
- Successfully implemented automatic generation and downloading of PDF vouchers with unique barcodes for seamless scanning.
- Successfully implemented Redux Toolkit for efficient global state management.
- Achieved payment processing through successful Stripe integration.

## EDUCATION

### CSIT(Chhatrapati Shivaji Institute of Technology)

Computer Science - **Percentage - 69.13**

2017 – 2021

Durg, India
