EXPERIENCE

Freelancing | **April 2024 – Present**
Software Engineer | *Remote*

- Developed responsive and high-performance full stack web applications using React.js, React Native, Node js, Express js, MongoDB, Next js for a variety of clients, ensuring clean UI/UX and cross-browser compatibility.
- Collaborated closely with clients to understand business requirements and delivered scalable full-stack solutions with reusable components and efficient state management.

iSmart Apps ↗
Software Engineer | *Remote, UK*

- Developed cutting-edge responsive design techniques, leading to a notable 15% increase in user engagement and improved user satisfaction.
- Mentored junior developers, providing guidance, conducting code reviews, and promoting best practices, resulting in a 30% improvement in code quality and a 40% increase in on-time project delivery.

QuikieApps ↗
Software Engineer | *Remote, Banglore, India*

- Engineered a hands-on learning experience in React Native app development and deployment, reducing app crash rates by 15% and implementing new features that boosted user engagement by 30%.
- Troubleshooted and debugged 50+ issues, ensuring timely resolution and minimal disruption to project timelines.

40Bears ↗
Software Engineer | *Remote, India*

- Designed responsive web applications with React js and fixed bugs in web applications.
- Contributed to daily stand-up calls and developed mobile apps with React Native.

PROJECTS

Utells - Hotel Booking and Service App | React Native, React js, Node js, Nest js, MongoDB **Live Link**

- Implemented and optimized in-app food ordering features, migrated project from Expo to React Native CLI, and managed end-to-end release for Play Store and App Store.
- Resolved and documented over 200+ application bugs, improving overall stability, performance, and user experience.

Neutrelle | React.js, Node js, Express js, Mongo DB, Material UI **Live Link**

- Developed a fully responsive web app to calculate carbon emissions from vehicles and plant trees.
- Achieved a 98% code accuracy rate in project deliveries, ensuring robust and reliable software solutions.
- Utilised React Router for navigation and created reusable components.

PathEd E-learning E-commerce Platform | React Native, React js, Firebase **Live Link**

- Integrated Google Sign-In for seamless and secure user authentication.
- Implemented video upload and playback functionality, supporting efficient content delivery.

GoalOasis - Goal creation and tracking app | React Native, React js, firebase **Live Link**

- Implemented automatic generation and download of PDF vouchers with unique barcodes, leading to a 30% boost in customer acquisition and a 50% boost in customer retention
- Integrated Stripe for seamless payment processing, leading to a 25% rise in successful transactions

TECHNICAL SKILLS

Technologies/Frameworks: MERN,React js, React Native, Next js, Typescript, Javascript, Redux, ReduxToolkit, HTML, CSS, MaterialUI, Tailwind css, GitHub, Node.js, Express.js, MongoDB, MySQL, AWS, EC2, S3
AI Tools: Cursor, Windsurf, Lovable

EDUCATION

CSIT(Chhatrapati Shivaji Institute of Technology) | **2017 – 2021**
*Computer Science - **Percentage** - 69.13* | *Durg, India*
